

Road Safety Champion Program: Module #4

OVERVIEW OF THE MUTCD

The goal of this two-hour virtual training, is to provide an introduction and overview of the Manual on Uniform Traffic Control Devices (MUTCD). The MUTCD defines the standards by which traffic signs, road surface markings, and signals are designed, installed, and used on all public streets, highways, bikeways, and private roads open to public traffic. This module will help participants become aware of the need for uniformity of traffic control devices, its legal requirements, and related liability. The overall goal of this training is to provide participants with an overview of the manual and how to use it.

Date: January 19, 2027

Time: 9:00 – 11:00am

Location: Virtual (Teams)

Learning Objectives:

- Understand the purpose and the organization of the MUTCD
- Understand the purpose of Traffic Control Devices (TCDs) and identify their five principles
- Describe the fundamental principles of Temporary Traffic Control (TTC) and list the four components of the TTC zones
